

FOOL IN LOVE

I wished I had good news, but bad news always steals the show.
We've been burned, there was no fire beneath the smoke.
We'd climbed too high, and spent our dreams and now we're broke.
Let's pack our bags, and close the door.
We don't have love, anymore.

We still have fun, I've just forgotten how to laugh.
We still have friends, but they don't come 'round unless we ask.
Do you recall, that night we stayed in bed all day?
It don't take long, that's for sure.
To loose your heart, that's what it's for.

To fall in love, if we could go back.
To where it all began.

I 'd meet you in the pouring rain.
Take you in my arms again.
We could make a change in plans.
Late at night I call you name, but you're not there.

Used to be we never got that far away.
Now when I whisper sweet and low, you don't hear.
What can I say?

INSTRUMENTAL BREAK / GUITAR SOLO

To fall in love, if we could go back.
To where it all began.

I'm just a fool in love again.
I'm just a fool in love again.
I'm just a fool in love again.
I'm just a fool in love again.

FLUGELHORN SOLO

Used to be we never got that far away.
Now when I whisper sweet and low, you don't hear.
You don't hear me.
You don't hear me no more.

I'm just a fool in love again.
I'm just a fool in love again.
I'm just a fool in love again.
I'm just a fool in love again, with you.
