

GOTTA GET FUNKY

What you want, what you need.
Back and forth in the weeds.
No matter where you go or what you see.
You gotta get funky.

In space and time, be out of line.
Getting' up and feelin' fine.
You've got yours and I've got mine.
You gotta get funky.

BRIDGE

Well I think you can, I know you could.
Well I think you might, I know you should.
With the back street cats down in the hood.
You gotta get funky.

She might be long, she might be tall.
She might be out to have a ball.
Might look like she got it all.
You gotta get funky.

HORN SOLI / TENOR SOLO

Could bring you up, could bring you down.
We're gonna blast it out to shake the ground.
One thing that I have found,
You gotta get funky.

If you know you will, but you think you might.
Don't take long to get it right.
It's too strong to try and fight.
You gotta get funky.
